P. Capt Shand

MS G.11.10 V.1 P.10

(c) HLMY

Dear Sr

London Augt. 6th 1765

Your kind Letter I rec'd. and in compliance with your request have waited on Mr Martin, he has got a good many things done, which he promises shall go in the next ship - The Organ he says you cannot have this Winter, but shall in the Spring; I represented to him the disad= =vantage the Youth now at College labourd under, for the want of an Apperatus, and how disappointed you was, in not having it in the Spring, and not hearing from him, he says he will write you by the next; that he has done all he could to finish it, and you may depend upon its being well done. I read him that part of your Letter which mentions his not sending any second hand thing, or any made for common sale, which he says he shall not. I have seen most of the things, and think them neat -
The other two Gentlemen you mentioned, have been to both, but had not the good fortune to find them, have left Letters for them, to desire they would send the things by Capt Hunter, shall call

upon them again - I am not here without having something to do, But I assure you I am not so much engag'd, but I could devote more time to Oblige Mr Winthrop, then at present there is occation for -

The Duty's laid on America as you justly observe, must cause a universal Uneasyness - I am sorry to say, that I think We have brot it all upon ourselves, by our own Imprudence, however We have thank God, a change in the Ministry, and from the Conversation which I had the Honor to have the other Day with one of the present Ministers, hope upon my return, to be enabled to bring you some pleasing Accounts -

I shall Conclude this with my best Wishes for yours, and Ladys Health, And Subscribe Myself Dear Sr Your Most Obedient Humble Servant - Charles Russell

PS My Regard, to all my Friends -

To John Winthrop Esq
